

Engineering Division

Efficiency and durability are the focus of the Engineering Division at Grow West®. Providing custom services ranging from construction and fabrication to equipment refurbishment, we are focused on the broad needs that present unique challenges you face across your operation. We take on projects large and small, always managing quality, specifications, efficiency and sustainability. Committed to increasing and improving our capabilities, we seek to be your engineering services provider of choice.

We help solve your problems. There are many fabrication shops in Northern California, but we offer a focus exclusively on specialty agriculture farming operations. Our experience isn't limited to just the shop, we have experience in processing environments such as seed and nuts as well as fertilizer manufacturing and other fluid handling and processing operations. This gives us a complete understanding and wide spectrum your unique engineering and fabrication needs.

Unique Offerings

CUSTOM CONSULTATIONS

We take pride in our ability to consult on projects and solve big or small problems for you. We assess, process, and seek to eliminate inefficiencies all while maintaining cost effectiveness.

EQUIPMENT REFURBISHMENT

We provide full equipment refurbishment services to extend the life out of most equipment for significantly less than a new or replacement piece could cost you.

OSHA REGULATION COMPLIANCE

If there is a piece of equipment that is not OSHA compliant, we can evaluate options to address your regulatory requirements.

Quick Facts

- Solve your problems with effective solutions in a timely and cost-conscious way
- Five full-time employees
- 40 + years in welding and fabrication
- 50 + years in construction
- 15 + years in product design

Product + Services

- Mild steel, stainless steel, and aluminum
- Welding
 - SMAW, GMAW, and GTAW
- Metal Cutting / Forming
 - CNC Plasma Table 5'x10'x1'
 - 32" Press Break
 - 32" Plate Roller
 - Tube / Pipe Bender
 - Pipe Threader
 - Drill Press
 - 14" Capacity Bandsaw
 - 120 Ton Ironworker
- CAD Designs
 - 2D and 3D drawings
 - P&ID
 - Site Plans
 - Complete Project 3D Drawings
- Trailer Repaires and Maintenance
 - Any and All Trailers
- Limited Metal Sales
