

Wholesale Division

Grow West's Wholesale Manufacturing Division puts the custom in custom blending. We provide custom nutrition developed by analyzing your nutrition requirements for crop development and quality. Our locations manufacture and blend both liquid and dry products to best serve you and your input needs. Whether you are looking for a small customized batch or industrial market products, Grow West has the capability to perform.

Our team of specialists have a unique perspective and knowledge of the marketplace, with experience on both sides of the table as crop consultants and as manufacturers. Meeting your needs is our number one priority. We start by listening to your needs and challenges to understand the problem and best map out a solution. This combined with our experience and knowledge of the marketplace and capacity to produce product quickly lends us a smart partner for your custom needs.

Unique Offerings

PRODUCTION CAPACITY

When it comes to fast turn around times, we are your manufacturer. With all of our custom blending products housed on site, we are able to meet your needs faster.
